Where It Hurts Most

A Shrinking Workforce

CHALLENGE 1

Growing Demand, Limited Supply

The Big Picture

Healthcare Job Growth Forecast

- +2.6 million new jobs expected by 2032
- That's a 13% growth rate – much faster than average

Source: BLS / industry estimates

Critical Specialty in Crisis

Family Medicine in Focus

Family Medicine: Critical, But in Crisis

- Core part of primary care
- Demand rising due to:
Aging population
- More chronic illnesses

Fewer Doctors Choosing Family Medicine

A Shrinking Workforce

Fewer New Doctors Entering Family Medicine

- Medical grads choosing other specialties
- Many family doctors nearing retirement
- Shortage expected to worsen

CHALLENGE 4

Patient Care at Risk

Where It Hurts Most

Rural & Underserved Areas Feel It First

- Shortage especially severe where access is already limited
- Patients face longer wait times or no care at all
